RE: Fort Smith Terminal; FRP-06-AR-00053

Dear Mr. Hammer:

This letter is to notify you that the United States Environmental Protection Agency (EPA) has approved your Facility Response Plan.

All appropriate liability requirements set forth in the Clean Water Act (CWA) 311(j)(5), as amended by the Oil Pollution Act of 1990 are still applicable. This regulatory approval was based upon technical review of the plan submissions. Please be advised that EPA will continue to monitor your facility's approval status through site inspections and information validation.

If EPA determines during its next review, or during field verification, that the response plan is inadequate, or if EPA acquires information which indicates your response plan is inadequate to manage potential discharges, EPA will require appropriate revisions to your plan. Failure to make such revisions may affect your plan's approved status.

If you have any questions concerning this letter, please contact my office at 214-665-6489.

Sincerely,

A handwritten signature in black ink, reading "Donald P. Smith", is positioned above the typed name. The signature is written in a cursive style.

Donald P. Smith
Senior On-Scene Coordinator (6SF-PO)
